Assistant Principal

At Homecroft Kindergarten Academy, students and families are welcomed from the moment they walk through our doors. Each child is treated with respect and care, and we believe that instilling a love of learning during kindergarten is the most important work we do! We consistently grow our students "From tiny acorns to Mighty Oaks," which is our school motto.

Our teachers and instructional staff work hard to grow students by setting high expectations and differentiating instruction based on individual student needs.

- ★ Mascot: Mighty Oaks
- ★ Individualized Instruction
- ★ LEGO Program to support STEM learning
- ★ Family Engagement Nights
- ★ Outdoor Learning Garden

Teachers utilize data to make all instructional decisions and HKA is proud to have earned several district growth awards.

Rewarding and acknowledging positive student behaviors is a

focus at HKA. Our students visit our oak trees regularly as they earn "oak leaves" for showing behaviors which exemplify our core values of being "On Task, Always Try Your Best, Kind Words and Kind Hands, and Safe and Smart Choices". We also celebrate a Student of the Week for each classroom including all special area teachers. Teachers and staff embed self-regulation learning into their day and teach weekly lessons through our Second Step Program.

Family partnerships are very important to us, and we encourage our families to be involved with our school through volunteering and Family Engagement events. These opportunities allow our students and families to make school to home connections, which provide a solid foundation for school success!
